

# Dollar Bottle Free

## The Greatest Woman's Medicine in the World

Not one cent to pay.  
No charges to collect.  
No deposits to make.  
No papers to sign.  
No receipts to give.

**Zoa Phora**  
The Dollar Bottles  
**Free**

There isn't a woman in the world who has tried or tested Zoa Phora who even wonders now at this great free offer.

### Zoa Phora Cures Women.

Thousands of tired, suffering, ailing, run down, weak and afflicted women who were tortured and reduced by the troubles peculiar to their sex—are today CURED. They are strong, well, hearty and plump; in good health, good color, clean complexion, robust and rosy—and they know that it was Zoa Phora and Zoa Phora ALONE that brought them back to the glow and brightness of girlhood days. If you will not believe the truth—my sister—then here at last is the first opportunity to prove it absolutely free. Zoa Phora means everything to women. It means healthy, natural menstruation periods. Without it the constant tendency either to scanty flow or to flooding is not properly regulated. Zoa Phora is the one regulator for the monthly troubles of women. It cures, normalizes and even the natural flow; no discomfort, no backache, no more nervous, breaking, sinking sensations, or the agonizing trembling weakness every suffering woman has so miserably experienced.

Thousands upon thousands of well women bear willing enthusiastic witness that this is true. There is no need, either, for the pain or the weakness. Zoa Phora sustains and fortifies by rebuilding, it resuscitates and heals. It cures by contact. It is NOT an indirect remedy. It reaches in to the disturbed parts themselves; soothes and relieves all irritation, and cures the cause by eradication. Common remedies do not do this—and they cannot be expected to.

Zoa Phora has cured thousands. One hundred and twenty thousand dollars—\$120,000 has been expended upon this great cure for women. Today it stands alone proven absolutely by its record among all cures—the cure for female diseases—falling of the womb, leucorrhea, displacement, growths, painful or suppressed periods, extreme menstruation or flooding, (expectant) maternity, child birth and motherhood change of life, kidney and bladder troubles, nervousness, tendency to cry, hysteria, spinal pains, weakness, etc.

This offer rests upon a record of Cures. Without such record we would not and could not give a dollar bottle free. Your name will reach us along with thousands of others. To you and to them as well—the full size dollar bottle Zoa Phora will come free—absolutely and unqualifiedly free—not one single penny of expense to you or to any other sister sufferer—we pay the bill—all of it—completely and entirely—the cost is all ours—and it is yours to cure and keep you cured hearty and strong.

Your name and the address, and Zoa Phora is sent to make you well—to cure and keep you cured hearty and strong. When you write for your free dollar bottle remember that there are thousands of other women who are well that went through just as much discouragement and hopelessness as you are enduring today. They are now well women—and surely their evidence may well be a proof to you. A full size dollar bottle of Zoa Phora—free—when your name and address comes in. Address

ZOA PHORA CO., 571.

Free Distribution Dept., Kalamazoo, Mich

## QUERIES AND ANSWERS

### Postal Taxes.

Editor of The Times-Dispatch:  
Sir,—Please answer in your next query and answer columns, the following question:

Can unused postal cards, which have been printed or spoiled, be redeemed at any discount, either in large or small quantities, at a first-class postoffice?

Th. S.  
Yes. They can be redeemed when it is plainly the case that the cards have never been used, and they are substantially in whole condition, not less than two cards, and at the rate of seventy-five per cent. of their face value, and only in postage stamps or other postal cards.

### The License Tax.

Editor of The Times-Dispatch:  
Sir,—Seeking answer to Optician is news to me, can I advertise in towns ahead giving day and date. I will be at hotel. Can I sit glasses at the hotel without paying license.

OPTICIAN.  
No. You cannot sell spectacles, eyeglasses, &c., without a state license, and such a license is only good in the commissioner's district in which it is issued. The license must locate the place at which the business is to be done.

### To Produce Flesh.

Editor of The Times-Dispatch:  
Sir,—Will you please publish in Sunday's paper a good flesh producer? Many thanks for your kindness.

A CONSTANT READER.  
If thinness is due to heredity far little of anything will be of benefit. If sustained after an illness it will be shortly regained; if due to a run down condition, plenty of sleep, fresh air, moderate and daily exercise, continued with tonics, fat foods or cod-liver oil should be effective.

### "Ku Klux Klan."

Editor of The Times-Dispatch:  
Sir,—What part did General Forrest take in the Ku Klux Klan and what is the meaning of the title of the order? MISS ALMA CONNERS.

General Forrest was the originator of

the secret patriotic order. He organized the first camp at Memphis, Tenn., and in time became the head of the order, which spread throughout Tennessee and other Southern States. Or, to use the language of the tribe, he was "Grand Cyclops of the White Brotherhood" of the South.

The word Ku Klux or rather the two words, came from the Greek word kuklos, meaning a circle. The word Klan was added because the order was fashioned after certain Scottish Clans, and for the purpose of illustration it was spelled "Klan." Hence Ku Klux Klan or "K. K. K." mystic letters which were frightful to a degree to some people in the dark reconstruction days.

### Jamestown Exposition.

Editor of The Times-Dispatch:  
Sir,—Will you kindly publish in your next Sunday's paper the name and address of the general manager of the Jamestown Exposition, and greatly oblige.

U. S. G. W.

D. Lowenberry, Norfolk, Va.

Write with tincture of iron, diluted with ten parts of water, and develop with a solution of tannin or decoction of nutgalls or strong tea. This may be reversed by writing with a decoction of nutgalls and developing with the blotter moistened with tincture of iron.

Law of Inheritance.

Editor of The Times-Dispatch:

Sir,—If a wife die and leave husband and children, please explain Virginia law of inheritance; does the husband inherit life interest in property and should all the children then die would the property pass free simple to husband, or would he only have life interest, and who would inherit at his death?

A SUBSCRIBER.

The husband would have a life interest in all of his wife's real estate, and if the wife leaves no will her entire personal property goes to her husband. If the children should die under the age of twenty-one years their interest in their mother's real property would go back to her kindred. If they were to die after they were twenty-one unmarried and without a will, their interest would

go to their father. If the husband should die before having inherited any of the real estate from any of the children who might be dead, then his (the husband's) heirs would acquire an interest, but as to the personal property left by the wife and inherited by the husband, it goes at his death to his distributees which would, of course, be his children if they were living.

### Game Laws.

Editor of The Times-Dispatch:  
Sir,—A club of non-residents own a shooting preserve in Virginia. Are they required to take out license in Virginia under the game laws of the State?

E. S. PORTER.

Game Warden of Bath County, Va.

By the provisions of section 2070 of the Code, each of such non-residents will be required to take out a license, as by that statute provided.

### Apple Butter.

Editor of The Times-Dispatch:  
Sir,—Please publish in your next copy a receipt for making apple butter, and oblige.

M. A.

Cider should be made from sweet apples and should be well strained and boiled in a copper kettle until it has boiled down one half, that is 40 gallons of cider should be boiled to about 20 gallons, then a good variety of cooking apples which had been peeled and thinly sliced should be added, a small portion at a time, until they have thoroughly cooked and all of the cider boiled out, so that the apple butter when placed in a saucer will show no cider running from it. Unless the cider is all boiled out the apple butter will not keep. Then take off the fire and put away in stone vessels. If the apple butter has been boiled long enough a glaze will form over the butter after it has cooled. Do not put hot apple butter into tin vessels.

### To Mend a Stove.

Editor of The Times-Dispatch:  
Sir,—Please publish in your queries column the answers to the following:

1. How can you mend cracks in an iron stove?

2. How can you mend a broken marble slab (table top)?

Please publish the above in your weekly paper, and oblige.

A SUBSCRIBER.

1. Mix equal parts of pulverized gum Arable and plaster of Paris; color with stove polish. Add water to a stiff paste and apply quickly.

2. Pulverized lime, one ounce; white of eggs, two and a half ounces; plaster of Paris, five and a half ounces; water, one ounce. Mix the lime with the egg white dilute this with water quickly, mix it with the plaster of Paris, and use the cement at once.

### The Husband's Position.

Editor of The Times-Dispatch:  
Sir,—A wife dying with or without a will, is her husband entitled to a life interest in her estate? Is a father entitled to his son's estate, who dies unmarried or without a will?

S. B. VAUGHAN.

The husband is entitled to a life interest in his dead wife's real estate, and to all of his wife's personal property. Whether a father is entitled to his son's estate who dies unmarried and without a will depends on the age of the son and the source from which the son's estate came. If the son owned real estate inherited from his mother and dies under the age of twenty-one years, the estate goes back to his mother's kindred. If he dies after he is twenty-one and he is unmarried, it goes to his father.

### Delinquent Land Sales.

Editor of The Times-Dispatch:  
Sir,—Will you please tell me in your "queries and answers" the answer to this question:

A father died about fourteen years ago and left a piece of land on the James River, but he did not make a will. There were three children and a wife who survived him. The mother took charge of the property and paid the taxes until about five years ago. Since then the property has been sold on account of the taxes not being paid.

Is there any way of getting the land back? The oldest child is now nineteen years old, the youngest fourteen.

Could you tell me what done and charges are, if there are any? And oblige.

A DEBTOR.

The statute, Section 65 of the Code, requires the plots of persons under age. The children in this case probably have the right to redeem the land by paying the delinquent taxes, interests and costs as required by the statute.

No reliable answer can be given in the inquiry without further information. The only way to ascertain and establish your rights will be a thorough and careful investigation of the facts, and the necessary investigation of the spot.

### Hereditary Alcoholism.

Editor of The Times-Dispatch:  
Sir,—Please answer the following ques-

tions in your query column and oblige.

My father drank excessively prior to my youngest sister's birth and has been in the insane asylum three times. I have investigated thoroughly on my father's and mother's side and find no trace of it either way. Was not the use of liquor so abundantly by my father the cause of my sister's insanity?

I find it the case in several families of my knowledge, some serious defect in children of a drunkard's father. A very prominent physician tells me it is a fact. Do statistics bear out these facts? R.

We have the following reply from the head of the Keeley Institute at Dwight, Illinois:

It is impossible to determine from the inquiry, that your sister's insanity was due to the effects of drink, which was used to great excess by your father previous to her birth. We know nothing of his condition at that time but it is a fact questioned by no one who has made a study of the action of alcohol upon the human system that its continued use may impair vitality in the father to such a degree that a weakened, nervous system may be transmitted to his offspring, together with weakened resistance to diseases in general. It is, therefore, not at all uncommon for the children of chronic alcoholics to develop epilepsy, hysteria, neurasthenia or insanity. This is borne out by the following authorities: Dr. A. J. Pressay states, "Probably what is really inherited from parents addicted to alcohol or morphine is a feeble constitution, a neurasthenic condition and a lowered vitality."

Dr. Norman Kerr, "An unstable state of brain is also handed down. The inherited defective mental balance is so real that any sudden and excessive cut upon their nervous system is apt to upset their equilibrium, and plunge them into an insane outbreak."

### Virginia History.

Editor of The Times-Dispatch:

Sir,—In the October issue of Munsey's Magazine is an interesting and well illustrated article on Jamestown and the vicinity, entitled the "Cradle of the Republic," by President John F. Kennedy.

The map, of the University of Virginia, the map, contains among other pictures pertaining to the shores of James River one of Shirley, which is stated to have been "the home of King Carter." There is also a copy of Judith Armistead's portrait—"wife of King Carter," who died in 1699 and is buried in Shirley.

Is King Carter here referred to as a person of marked distinction and prominence in the colony, having served as president of the Council, Governor and treasurer of the colony, and has had amongst his lineal descendants three Presidents of the United States (Benjamin Harrison, William Henry Harrison and Benjamin Harrison again), as also four Governors of Virginia (Harrison, Nelson, Page and Fitzhugh Lee), not to mention others not less distinguished, including Robert E. Lee, it may be well to state that his residence was near a place called Corotoman. His wife's (Judith Armistead) tomb is beside his own at Christ Church, Lancaster county. An error, traceable to Bishop Meade's work, and since very widely copied, places her death in the year 1699. It should be, as the tomb shows, this by its inscription, also that she was Mr. Carter's first wife. Another tomb to the memory of Betty Landon shows her to have been his second wife; that she bore her husband ten children, and died July 3, 1716, in the thirty-sixth year of her age, and nineteen of her marriage. Of course, she must have been married some years prior to 1699.

Shirley was the residence of Colonel Edward Hill, whose daughter, Elizabeth, married King Carter's eldest son, John, secretary of the colony. The place became prominent as a Carter home during his occupancy by Charles Carter, the eldest son of John. He was the happy father of twenty children, the tenth of whom was married to General Henry Lee and was mother to Robert E. Lee.

G. W. BEALE.

### Affairs in Carroll.

(Special to The Times-Dispatch.)

HILLSVILLE, VA., October 7.—Rev. J. L. Beattie, pastor of the Presbyterian Church at this place, had resigned this charge and will in the future devote his whole time to Bethesda and Dinwiddie churches, in the Northeastern part of the county.

Politics are at quite a low ebb just at this time. It seems that both parties are at loss to know what to do first. The Republicans have nominated Rev. J. L. Beattie as their candidate for Representative, but do not appear to be very enthusiastic over him. The Democrats have made no nomination, but there is talk of Judge N. P. Oglesby running.

### What Sulphur Does

For the Human Body in Health and Disease.

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and massages every spring and fall.

It was the universal spring and fall "blood purifier," tonic and cure-all, and mind you, this old-fashioned remedy was not without merit.

The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form, so that a single grain is far more effective than a tablespoonful of the crude sulphur.

In recent years research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide) and sold in drug stores under the name of Stuart's Calcium Sulphate. They are small chocolate coated pellets and contain the active medicinal principle of sulphur in a highly concentrated, effective form.

Few people are aware of the value of this form of sulphur in restoring and maintaining bodily vigor and health; sulphur acts directly on the liver and excretory organs and purifies and enriches the blood by the prompt elimination of waste material.

Our grandmothers knew this when they dosed us with sulphur and molasses every spring and fall. The crudity and impurity of ordinary flowers of sulphur were often worse than the disease, and cannot compare with the modern concentrated preparations of sulphur, of which Stuart's Calcium Sulphate is undoubtedly the best and most widely used.

They are the natural antidote for liver and kidney troubles, and cure constipation and purify the blood in a way that often surprises patient and physician alike.

Dr. R. M. Wilkins, while experimenting with various remedies, soon found that the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation or malaria, have been surprised at the results obtained from Stuart's Calcium Sulphate. In patients suffering from bile and malarial, and even deep-seated curculione, I have repeatedly seen them dry up and disappear. In four or five days, the skin clears and smooth. Although Stuart's Calcium Sulphate is a proprietary article, and sold by druggists, and for that reason, I am not free to give you the reason, I know of nothing so safe and reliable for constipation, liver and kidney troubles, and generally in all forms of skin disease as this remedy."

At any rate, people who are tired of pills, and who are tired of blood purifiers, will find in Stuart's Calcium Sulphate a far safer, more palatable and effective preparation.

### THIS DAY IN HISTORY

October 8th.

66—Cestius, the Syrian prefect, in his fatal retreat, was defeated by the Jews at the Pass of Bethgabor Nero.

1202—The Venetian crusade sailed, under Bonifacio, of Montferri.

1708—The "Lounge" appeared at Padua, conducted principally by Henry Mackenzie.

1791—A jury at Sudberry, England, not being able to agree, oppressed by hunger, broke open the doors and went home.

1793—Lyons, in France, surrendered to the Republicans, and a most terrible massacre of the inhabitants ensued.

The Convention decreed that the walls should be razed and Lyons called "La Ville Affranchie."

1804—All communication between Holland and England stopped, letters to Rotterdam being seized and conveyed to the French general.

1822—Bruption of Mount Galangoon, in the island of Java. The destruction in the short time of three hours laid a fruitful and thickly populated country under a crust of boiling mud. In some places to the depth of fifty feet, five million coffee trees were destroyed, eighty-seven canals, numerous rice fields, 114 villages and upwards of 4,000 inhabitants.

1829—Many Jesuits were expelled from Padua by the passing of the Roman Catholic relief bill.

1831—Great earthquake in South America. The town of Arica was utterly ruined, and the shock was felt along the coast, including seven degrees of altitude, shaking to its center the immense breadth of the main Cordillera.

1848—The population of Vienna, which had been in a state of insubordination two days, became calm, and the Emperor was invited to return.

1854—The entire Austrian army placed on a war footing.

1854—The steamboat E. K. Collins, from San Francisco, was wrecked on the coast of California, and was burned, by which twenty-three persons lost their lives.

1855—The grand jury in New York city returned indictments against several city officers for corruption and malversation in office.

1864—Federal troops and militia under arms all day and night at Memphis, Tenn., expecting an attack by the Confederate forces, under Beauregard.

1874—Shanghai dispatches announced the declaration of war between Japan and China.

1894—President Cleveland issued an order forbidding all subordinates to leave Washington, D. C., for the purpose of making campaign speeches.

1904—Russo-Japanese War: Kuropatkin sent 300 guns to protect left flank of Russian army, fearing attack from Kuropatkin's forces; Cossacks active south of Hun River; fleet in no condition to fight.

1904—Peace Conference adjourned at Boston, to meet in 1906 at Lucerne, Switzerland.

THROUGH PULLMAN SERVICE TO CHICAGO, VIA N. & W. RY.

Commencing October 1st, train No. 15, leaving Richmond 9:30 P. M. and Petersburg 10:25 P. M., will carry through Pullman sleeper, Roanoke to Chicago, via Columbia and Pennsylvania lines. This new service, in connection with the Pullman sleepers now carried by this train from Richmond to Lynchburg and Petersburg to Radford, forms practically a through sleeping car line from Richmond and Petersburg to Chicago.
